PCT/US04/17753

Box IV TEXT OF THE ABSTRACT (Continuation of Item 5 of the first sheet)

The technical features mentioned in the abstract do not include a reference sign between parentheses (PCT Rule 8.1(d)).

NEW ABSTRACT

A system for tracking writing motions internally to the pen (2) and communicating such motions to a computer system. In a preferred embodiment the present invention uses multiple tubes with electrically active material with viscosity surfaces in order to generate the necessary signals to determine the motion of the device in a targeted number of degrees. The data is then filtered (by filter 3100) and optionally processed (by processor 3300) and stored (storage connected to output line 3500). The data (3500) then can be downloaded to a computer to determine the motion of the pen (2).
